BOOK ORDERS EARLY

No nurseryman can carry a complete stock of everything all through the entire season. It is easier to sell a customer four months ahead of delivery date than to sell just before shipment. It costs the customer **NOTHING** to order early. Early orders receive complete protection on varieties and are always filled with best grades. Book your orders early and avoid loss and disappointment.

TERMS OF PAYMENT—CASH ON DELIVERY

Transportation charges are paid if shipped in a regular delivery. Single shipments over \$10.00 in Nebraska, Iowa and South Dakota. On orders of \$20.00 or more in other states.

We ship only in the spring.

ENTOMOLOGIST CERTIFICATE

We have the state inspector's certificate showing our stocks to be free from San Jose scale and other plant diseases or dangerous insects and attach facsimile copy to each shipment.

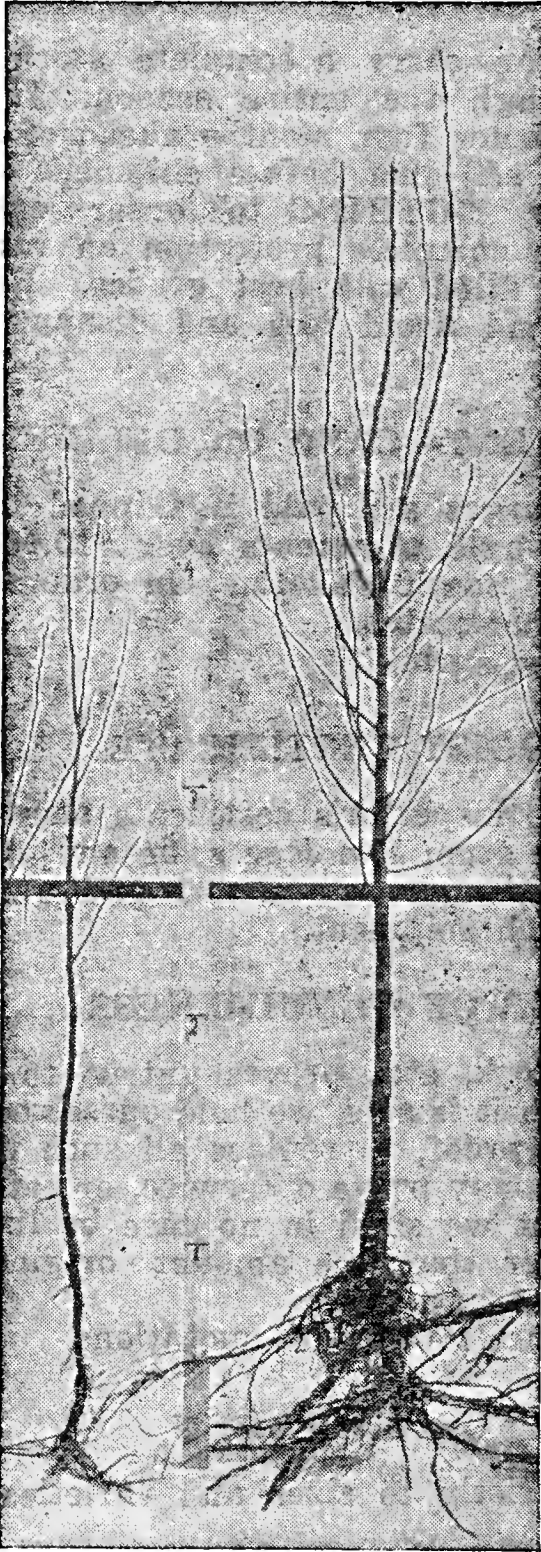

GUARANTEE OF GENUINENESS

If any nursery stock, etc., proves untrue to description under which it is sold, we hold ourselves in readiness on proper proof, to replace all such nursery stock, etc., that may prove otherwise, or refund the amount paid, but we shall in no case be liable for any sum greater than the amount originally received for said nursery stock.

This price list cancels previous quotations.

NOTES FOR SALESMEN

1. Confine sales strictly to sizes and varieties in this list.
2. Be sure to give postoffice, R. F. D., Dates, Distance from delivery point and customer's name. Be careful to write sizes in order as they are listed in this Price List, and do not under any circumstances write even size, as 5 feet, 6 feet, 18 inches. All improperly written orders made by salesmen will be returned for correction.
3. Confine your sales to central delivery points. Avoid making deliveries at every little town.
4. Draw a line through any stock when we are sold out to help prevent any further sale.
5. Report any complaint you may have that you can not adjust satisfactorily with customer.

BETTER BUILT TREES

We do not offer to our customers the lighter grades of nursery stock as offered by some mail-order concerns. We handle only heavy, properly headed, well balanced and well rooted stock such as we would plant ourselves—the kind that is sturdy, will grow readily and requires the minimum of shaping and training. We do not solicit parcel post orders and it is not necessary that we ship the light grades. We do not believe in that kind of stock. We feel that this policy pleases our customers and has been a basis for our steadily increased patronage. We like to have customers visit our nurseries to see the pride we take in raising trees and plants. No expense or time is spared to produce the best and we invite comparison.

Photograph of mail-order 3-4 feet apple tree and Marshalls specimen grade (5-6 feet). The small tree weighs 6 ounces and the Marshalls specimen tree 40 ounces. Notice that Marshalls tree is six and two-thirds times the size of the small tree. The value is proportionate. It takes more than height to indicate the value. The home planter wants a strong tree with head formed.

PACKING

Every customer's order is individually packed. All trees and plants are enclosed in heavy paper and burlap, with damp moss about the roots to prevent stock from drying out.

The small one is a 12-18 inch mail-order grade and the large one Marshalls specimen grade. Is the small one worth planting? It should be grown by the nurseryman for two years more before being sent to a home planter. It is a nursery line-out grade and not strong enough for the home planter. The small plant weighs 2 oz. Marshalls specimen weighs 32 oz.
